

Yeatts Rug Plant is the final destination.

Cleaning all types of rugs, carpets, and upholstery is our specialty. Competitors, manufacturers, and teachers of the fabric cleaning trade, recognize **Yeatts Rug Plant** as an industry leader. Other service professionals in medical, real estate, and commercial cleaning select our company to clean fabrics for their clients. In some instances we clean carpets due to allergy or asthma concerns while other instances the cleaning is an emergency or scheduled. Our networking partners in restoration services select **Yeatts Rug Plant** to process severe water and soot damaged rugs, carpets, and upholstery. However, there is more to our vertically integrated company than superior cleaning services. The relationship we have with **MasterBlend®** has yielded significant benefits. Our knowledge of fabrics and the appropriate cleaning solutions to use in cleaning various fabrics allows for suggestions to **MasterBlend®** and quick answers for any local cleaning service company using **MasterBlend®** products. Local companies are increasingly selecting **Yeatts Rug Plant** as the destination to purchase superior cleaning solutions. Since our Master Cleaners use these cleaning solutions daily, the company owner or technician has instant access to the use, dilution ratio, and more. **Yeatts Rug Plant** continues to process rug repair orders and the demand for our craftsmanship is increasing each year. From hand repair to simple outer edge repair, the customer will benefit from our experience and have input on the available options for repairing a rug. Our skilled technicians are grateful to see a customer smile after viewing the final rug repair results. Bring your rug repair orders to **Yeatts Rug Plant**.

Customer service the way it should be.

Technology has increased productivity for all American businesses throughout the last quarter century. Excessive manual labor has lessened in all industries and the means of operating a business has transitioned from paper to software applications. Call any large corporation or government agency, and prepare yourself to be greeted by computer interactive voice response software. If your question isn't very common on the list provided, then you might actually talk with a live person. Of course this entire process will take time. Sending emails may take time for results as well. Consider the vast amount of emails sent to any business during the week. At **Yeatts Inc.** our goal is to provide superior customer service, regardless of the communication route you select.
