

We are the commercial carpet cleaning experts!

Everyone realizes **Yeatts Inc.** is sought after for residential carpet cleaning. Leading janitorial companies and successful building maintenance managers select our company to clean carpets and upholstery for their customers or buildings under their management. **Yeatts Inc.** technicians can be seen cleaning large commercial businesses and organizations in the late afternoons and on weekends. Our company rarely loses a commercial account as well. Often the termination of a commercial account is a result of the maintenance manager leaving for a better position or the janitorial company losing the account. Yet we maintain the loyalty and continued networking relationship with the professional building maintenance manager or janitorial company. **Yeatts Inc.** has worked with janitorial companies and maintenance managers for decades. They know our company provides superior cleaning results without cutting corners such as avoiding to clean the carpeting behind the many doors in a building. Our technicians know to vacuum heat registers covered in dust. They understand the importance of placing small items such as trashcans under desks out of the way prior to cleaning. **Yeatts Inc.** technicians are very learned in time management and quality control. Each technician understands their accountability for quality of work on each job. This yields another facet as to why we clean so many commercial carpets and upholstery. While most people head home at nights on weekdays or sleep late on Saturday mornings, our technicians are working. They are entrusted to enter buildings, provide superior service, set alarms, and lock up buildings without disturbing personal items.

Purchase cleaning solutions from Yeatts Inc.

More and more local companies are selecting cleaning solutions offered by **Yeatts Inc.** The expert advice and knowledge of all cleaning solutions we distribute is simply unmatched. Our company will select the best cleaning solutions after testing and deciding on the solutions we will eventually use daily. This is our standard prior to distributing cleaning solutions we deem suitable. It is beneficial for local owners as they can simply drive to **Yeatts Rug Plant** for immediate processing six days a week. From coffee to urine stains, **Yeatts Inc.** has a specific cleaning solution to remove the specific stain in inventory. We take pride in adhering to the FIFO method, knowing all cleaning solutions in inventory have months of shelf life to provide superior cleaning results.
